

PARKING RESERVATION INSTRUCTIONS

Reserving Parking for our movers is crucial. This document will help get you through it!

Why do I need to secure parking for my movers?

A main step in ensuring a smooth move is to secure parking space for your movers. If they can't park the truck, then they won't be able to complete the job. Being able to park close to your door will minimize walking distances and reduce both working time and your total cost.

METHOD 1: Official Parking Permit Method

Apply for an official parking permit and put out official signage to reserve parking space.

HOW?

Step 1: Click your borough on the last page of this document and follow the steps to obtain a parking permit. If your borough is not listed call your Town Hall. The cost of your parking permit will vary based on the borough.

Step 2: Send your permit to sign installation company. They will put official no-parking signs for you. This cost is approximately \$100.00. www.parcomainre.ca/contact

OR

Step 3: Rent “No Parking” Signs from Bust a Move Moving and install them 24 hours prior to your move. The rental fee is \$30 per set of three signs.

Pros: Guarantees parking space for your moving truck.

Cons: Can have an associated cost which varies in price depending on borough.

METHOD 2: Do-It-Yourself Parking Reservation

HOW?

Option 1: Rent appropriate “NO PARKING” signs from Bust a Move Moving for \$30 (Set of three) and place them outside of your addresses at least 24 hours in advance.

Option 2: You can use orange cones, garbage cans, old chairs or other objects and tie rope or caution tape around these items with a “No Parking – Déménagement” sign on it.

Pros: Free / Low Cost

Cons: Unofficial – People can still take your parking space no matter how nice your “No Parking” Signs are.

Contact your Borough and follow instructions for Obtaining a Parking Permit
